EXPERIENCE

Varsity Newspaper (UCT)

Aug 2021 - present

Working with 4 other developers to rewrite the Varsity Newspaper website for a better user experience and optimise it for search engines.

Flutter Developer at Filledstacks

May 2020 - June 2021 • 1yr 4 mos

Lead the development of an integrated testing tool for Flutter apps. The tool had its UI written in Flutter, for MacOS and Windows with Google firebase used for backend over a RESTful API. I also developed the parser and interpreter for its scripting language.

Mobile App Developer, Self Employed

Feb 2017 - present

Working from home building Android applications and back-end APIs with Java, Dart, Flutter, Firebase, PHP, and NodeJS.

EDUCATION

Computer Science at UCT

2020 - 2023

Currently studying towards a bachelor's degree in Computer Science at the University of Cape Town.
